Track WER 2013: 16th Workshop on Requirements Engineering - CALL FOR PAPERS

WER'13 is the sixteen edition of the Workshop on Requirements Engineering. The workshop started as a meeting of the Ibero-American requirements engineering community, but over the years has attracted attention of researchers from other parts of the world as well. WER'13 will be carried out at the ORT university in Montevideo, within the CibSE'13 conference.

Topics of interest include, but are not limited to, the following:

- Requirements elicitation, analysis, and documentation
- Requirements validation and visualization
- Requirements specification languages, methods, processes, and tools
- Requirements management, traceability, prioritization and negotiation
- Non-functional requirements
- Requirements engineering and software architecture
- Aspect-oriented requirements engineering
- Service-oriented requirements engineering
- Requirements for Web-based systems and mobile applications
- Requirements engineering for self-adaptive systems
- Requirements for the agent-oriented paradigm
- Requirements for product lines
- Social, cultural and cognitive factors in requirements engineering
- Aligning requirements to business goals and processes
- Requirements engineering education and training

Authors are invited to submit papers which should not exceed 14 pages in Springer-Verlag's LNCS style. Submission should be sent via the EasyChair system

(<https://www.easychair.org/conferences/?conf=wer2013>).

Acceptance will be based on originality, contribution to the area, quality of the paper and ability to generate discussion. The best paper will receive an award. All the accepted papers will be published in a book with ISBN number. Additionally, papers will be indexed by DBLP and made available in [WER series repository](#). We are working to publish the best papers in an international journal special issue.

WER accepts contributions in three major ibero-american languages: English, Spanish and Portuguese.

Accepted papers will be indexed by DLBP and ELSEVIER, in addition to being included in WER repository.
